Professional: Remote Pair-Programming, Teamwork, Adaptable, Critical Thinking, Leadership, Quick-learner

EXPERIENCE

RIGHT RUDDER MARKETING

Remote (US-based company)

Web Developer

Jan 2024 – Present

- Leading the design and development of a custom ERP software solution using Ruby on Rails and PostgreSQL to optimize the company's daily operations, building scalable front-end and robust back-end systems to enhance efficiency and support data-driven decision-making.
- Developing and maintaining custom websites for various flight schools using Astro, ensuring high performance, responsive design, and user-friendly navigation.
- Implementing SEO best practices and analytics tools to improve website visibility, track performance metrics, and drive traffic growth, achieving measurable increases in client engagement and conversions.

RECURRENTE

Remote (Guatemala-based company)

Ruby on Rails Software Developer

July 2022 – December 2023

- Design and implement improvements to the API for external use, enhancing data exchange between services.
- Maintain open communication with customers to enhance application functionality. Promptly address inquiries, issues, and bugs within a 24-hour timeframe to sustain high levels of customer satisfaction.
- Ensure software integrity by efficiently identifying and resolving bugs and maintaining the application's reliability and performance.

CIAN CODERS

Quetzaltenango, Guatemala

Software Developer Intern

September 2019 – November 2019

- Developed responsive web applications.
- Adhered to programming best practices by proactively engaging in continuous code refactoring.
- Learned to thrive in high-pressure environments, meeting tight project deadlines while maintaining quality and innovation.

CROSSFIT XELA

Quetzaltenango, Guatemala

Founder and CEO

January 2016 – April 2022

- Built my own company from the ground up.
- Managed and trained 10+ individuals to work collaboratively and with purpose.
- Built a business system with defined principles and procedures that make the company work without my constant supervision, which gives the company a 10% increase in clients yearly.

EDUCATION

MICROVERSE

May 2022 – December 2022

Remote Full Stack Web Development Program, Full-Time

- Spent 500+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Ruby on Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard gitflow, and daily standups to communicate and collaborate with international remote developers.

UNIVERSIDAD DEL VALLE DE GUATEMALA

January 2010 – December 2014

Bachelor of Science in Mechatronic Engineering

- Built a smart card prototype that tracks people who use public transport, to gather enough data to implement smart city technologies.
- Developed 10+ projects that involved programming a microcontroller that performs a certain task with input and output devices by using different tools like Raspberry Pi and Arduino.
